PROFESSIONAL SUMMARY

Business Analyst with a distinctive cross-domain background: a Pharmacy degree paired with B2B Sales & Operations experience. Experienced in analyzing messy business workflows, standardizing cross-department handoffs, and translating operational pain points into structured requirements. Skilled in BPMN process modeling, User Story writing, SRS/BRD specification, and SQL/Excel data analysis. Strong English communication (TOEIC 860).

CORE COMPETENCIES

- Process Modeling (BPMN)
- Process Analysis & Optimization
- SQL Data Querying
- Requirement Gathering (BRD/SRS)
- Stakeholder Management
- Agile / Scrum Framework
- Use Cases & User Stories
- UAT Testing & Validation
- Jira, Figma & Excel

WORK EXPERIENCE

B2B Sales Executive (*Process Improvement*) Mar 2025 – Present
Allergens Co., Ltd.

- Redesigned enterprise document management and standardized operational data organization, cutting information retrieval time by 60%.
- Architected a payment and order reconciliation tracking system on Google Sheets, synchronizing operational data across Sales, Logistics, and Import–Export teams.
- Standardized cross-department workflows to improve task visibility and accountability, reducing unnecessary meetings and raising on-time task completion by 50%.
- Acted as the cross-functional liaison across Sales, Drug Registration, Logistics, and Customer teams to keep order fulfillment on schedule.
- Facilitated process alignment workshops, documented agreed standards, and interfaced directly in English with international partners during on-site visits.

PROJECTS & CASE STUDIES

Business Analyst Training Program (Hands-on Projects) — Techcamp Co., Ltd. (Apr 2026 – Present)

Digital Transformation — Muong Khuong Chili Sauce (OCOP Product) 2026

- Surveyed existing sales and distribution processes (As-Is) to propose an e-commerce and order management solution.
- Modeled target workflows (To-Be) using BPMN and designed key UI wireframes in Figma.
- Authored comprehensive BRD and functional blueprints, handing off technical specifications to development teams.

Personal Finance Fintech App — “Where Did My Money Go?” 2026

- Conducted user research to define user personas, cash flow tracking logic, and key retention requirements.
- Formulated comprehensive User Stories, acceptance criteria, and full SRS specification within an Agile/Scrum framework.
- Designed test scenarios and conducted validation to ensure functional accuracy against requirements.
