FPT Digital Co., Ltd. (FPT Corporation)
Ho Chi Minh City / Hanoi, Vietnam

RE: Application for Business Development Executive (Digital Transformation & AI Solutions)

Dear Recruitment Team,

FPT has been an integral part of my daily life—from relying on Long Chau Pharmacy and enjoying football matches on FPT Play to using FPT Telecom's high-speed internet every single day. To me, FPT is far more than a leading Vietnamese corporation; it is a symbol of our nation's pioneering spirit and a shared belief in striving for a smarter, better future. It is with this deep personal connection and aspiration that I am applying for the **Business Development Executive (Digital Transformation & AI Solutions)** position at FPT Digital.

I hold a Bachelor of Pharmacy degree (Graduated with Distinction) paired with two years of hands-on experience as a B2B Sales Executive in the healthcare & pharmaceutical sector. In my role at Allegens Co., Ltd., I successfully connected with and managed partnerships across **more than 60 international (India and global markets) and domestic manufacturers**. Working within a lean, high-performing team of just two people, I helped drive nearly **\$800,000+ USD in commercial revenue** while building a proven track record in lead generation, client relationship management, and commercial deal execution.

Deeply passionate about continuous self-improvement and artificial intelligence, I actively integrated modern AI tools into our daily workflows and internal training sessions to elevate overall team performance. By combining an AI-driven mindset with an analytical, data-driven approach, I standardized operational workflows and built automated tracking systems—**cutting document retrieval time by 60% and boosting on-time SLA (Service Level Agreement) fulfillment by 50%**. This journey reinforced my consultative selling mindset: thoroughly diagnosing client operational pain points before presenting targeted, high-impact business solutions.

What distinguishes my candidacy for FPT Digital is my ability to bridge business strategy with technical comprehension:

- **Customer Connection & Diagnostic Insight:** Proficient in market research, business analysis, relationship cultivation, and data analytics (SQL, Advanced Excel), allowing me to accurately diagnose customer needs and translate them into tangible business opportunities.
- **Cross-Functional Collaboration:** Extensive experience liaising between commercial, regulatory, technical, and executive teams, ensuring smooth alignment between client expectations and delivery feasibility throughout the sales and implementation lifecycle.
- **Continuous Market & AI Curiosity:** Committed to staying ahead of emerging digital and generative AI advancements, enabling me to communicate value persuasively and position FPT Digital's cutting-edge offerings to C-level decision-makers.

Backed by professional English proficiency (**TOEIC 860**) and a disciplined, detail-oriented mindset, I am confident in my ability to independently prospect new business opportunities while collaborating closely with FPT Digital's senior consultants to close high-value enterprise accounts.

Thank you for considering my application. I have enclosed my resume and welcome you to review my online consulting case studies at khoily2509.github.io/Portfolio-BD. I would welcome the opportunity to discuss in an interview how my skills and energy can drive sustainable business growth for FPT Digital.

Yours sincerely,

Ly Minh Khoi
